

CIMPA SCHOOL EL SALVADOR 2022

Algebraic Methods in Topology

July 11th to 22nd, 2022

Courses

- **Topology of function spaces**
Ingrid Martínez & Dimas Tejada, Universidad de El Salvador.
- **Equivariant Co-Homology**
Noé Bárcenas, Universidad Nacional Autónoma de México.
- **An introduction to Geometric Group Theory**
Luis Sánchez, Universidad Nacional Autónoma de México.
- **The ∞ -categorical point of view for Thom spectra**
Omar Antolín, Universidad Nacional Autónoma de México.
- **Categories and Modules**
Nadia Romero, Universidad de Guanajuato.
- **Foundations of Homological Algebra applied to Modules**
Keri Sather-Wagstaff, Clemson University.
- **Algebraic K-Theory and connections to Topology**
Mohamed Elhamdadi, University of South Florida.
